

Give the BATFE Bureaucrats the Boot!

Boot them out of your life. Boot them into oblivion.

Why?

(The plain truth)

- If you are *afraid* to use your rights...then you *don't have* those rights!
- The BATFE now routinely aims to make gun owners *afraid*.
- We have documented the BATFE's chain of abuses and their campaign to intimidate gun owners.
- The BATFE and DOJ tried to bury the information – to avoid publicity and outcry.
- If we want our gun rights, then we need to put the BATFE back into its cage.
- Energized gun owners can boot the BATFE...if we get mobilized now!

If We Don't Fight Now...

(Certain defeat)

- Then BATFE wins.
- Then more laws and regs arise as legal traps for gun owners.
- Then Shooters, Home Defenders, Hunters & Collectors all live in fear of federal investigations and bogus criminal prosecutions.
- Then we kiss our rights goodbye.

The Truth Stops the BATFE Abuses

(Public awareness scares bureaucrats)

- With gun-maker Len Savage, we have been holding the BATFE's feet to the fire!
- The BATFE has officially stated a *shoelace is a machine gun* – we published the letter! at jpfo.org.
- A BATFE "expert" tried to prove a defective semi-auto was an unlawful machine gun – we published the video that *exposes the fraud*. The bogus prosecution was stopped.
- The BATFE has *NO* standardized procedures for determining if a firearm is legal. We published the Congressional Research Service report at www.jpfo.org.

Keep the Momentum!

(Let's roll)

- Keep pushing! We have the BATFE on the run. Now YOU can:
